the flocks healthy & gives better FCR.*

Liver Tonic For Poultry

EPATONIC PLUS

Mode of action of EPATONIC PLUS:

- The Epatonic plus protect the liver cells from harmful effects and prevent the release of ALT, AST, ALP from the hepatocytes into the blood stream caused by the toxins.
- Protects and restore the function of liver and balances the immune system. Also helps to protect from damage associated with **autoimmunity, inflammation, oxidation and infection** such as viruses.
- Increase the functional activity of liver to detoxify and counteract damage caused by the mycotoxins, reduces fibrosis and stimulate new hepatocyte formation.
- Protect liver from harmful toxins and help in controlling **fatty liver syndromes**.

Indications:

EPATONIC Plus is highly effective, well documented and rational therapy in all hepatic disorders due to: **Mycotoxins** e.g; **Aflatoxin**, **ochartoxins** & **zeralinone** toxin etc chemicals, insecticides.

- **Drugs induced hepatitis** acute & chronic.
- Bacterial and viral diseases i.e; hydropericordium syndromes, IBH, IBD, fowl typhoid, cholera, fatty liver syndromes fatty regeneration & fatty liver infiltration.
- Loss of appetite & sluggish liver.
- Acts as hepatoprotective agent.
- Helps in hepatic regeneration for excretion of **toxic waste materials** from body.
- For improvement of F.C.R, egg production etc.
- For metabolic disorders.
